CORN IN GERMANY.

The American Maize is Finding an Im-

proving Market in That Country.

The agricultural department has re-

ceived from John Mattes, jr., one of its

representatives in Europe, a letter

showing a satisfactory increase in the

uss of American corn in Germany. He says the prejudice formerly existing against maize as fodder for horses and

of cats are imported annually, but maize is now preferred by many. In 1880 Germany imported 561,942 tons of maize; in 1891, 498,326 tons, and in 1893, 761,079 tons, these figures being in each case three times the amount of cats im-

maize to their horses with satisfactory results. The total consumption will al-

results. The total consumption will always depend, he says, upon the local production of forage plants, but it is certain that maize is rapidly taking the place of dried brewers grain, olicake and the many other inferior substi-

The Government Crop Report.

The Government Crop Report.

The October crop report of the bureau of agriculture increases the estimate on corn from 63.4 in September to 64.2.

The corn percentage compares with 75.1 in October, 1893, with 79.8 in 1892, and with 92.5 in 1891. On the basis of this month's report, wheat and corn crops this year will compare as follows with the ascertained yield of provious years:

Wheat. Corn.

Corn.

Wheat, bushels, 435,000,600 S96,131,000 515 919,000 515,919,000 599,252,000

The St. Johns Fleet.

o'clock, was held up by two men about AND THE CAUSE OF TROUBLE six miles below this city last night. The roberry occurred about seven miles be-

A Prominent Professor Gives Som Timely Hints Which Are Amply Confirmed by Facts.

ALAS! THEY DO NOT KNOW

Many Women,

"Women do not realise the cause of their troubles." The president of a medical college who uttered these words looked very solemn; was very sad. had just seen a hopeless case of a charming woman who was near to death.

"In nine cases out of ten," he continued, "the causes of women's troubles are the same, and yet it is seldem real-ized by their friends, themselves or their physicians. Thousands of back, with rifles at their heads, to the rear of the express car, where the victims were ordered to uncouple the train. This was done, and, before the expressman, mail clerk or any of the train hands knew what was going on, the engine was speeding ahead, and was drawing only the two forward mail cars and Wells Fargo & Co.'s express car. They went ahead about five miles with the robbers, the engineer and fireman on the engine. The rest of the train remained at Sheep Camp. When the captured cars were halted, Engineer Scott and the fireman were marched back to the express car, where the robbers made a demand on Messenger Paige to open his door.

Paige healtated, and some shots were fired through the glass door at him, one their physicians. Thousands of women are in the first stages of Bright's disease of the kidneys. The symptoms are shown by head-

of which grazed his temple and filled it with bits of broken glass. Then the engineer called out to Paige to open the door. "We're covered with guns, and they will kill us if you don't open," said Scott. Still Paige desisted and because to the through the door but his said Scott. Still Paige desisted and began to fire through the door, but his aim was wild, and again Scott, in fear of his life, called on the messenger to open, swing that the robbers would surely blow him up unless he gave up.

The messenger finally opened the door. One robber then covered the messenger and eugineer and fireman with his rifle, while the others searched for coin. He found three sacks, one containing \$200 (in silver and two small sacks of gold. There was a good deal of treasure on the train, however, which the robbers did not get. aches, depressed feelings, weaknesses, achies, depressed teelings, weaknesses, bearing-down sensations and in many other ways which women fully understand, but unfortunately do not realize. Now, these things are not uncommon or necessarily dangerous, but unfortunately they are too often allowed to run along. There are co-certain times when they are worse, of course, and should be then most carefully guarded. Long life, health, happiness and sil that it implies will result if proper care and the right means are used. Sickness, the right means are used. Sickness, disease, unhappiness and premature death are certain to come if they are neglected. I know of but one thing to do in such cases, and that is to guard against the first approaches of Bright's disease—guard against it as you would a plague. Use the only known remedy for this great modern trouble which is ing the engineer and threman benindaThey went down the road toward Sacramento, and then they reversed the
lever and sent it back to the stalled
train. Luckily the steam was low, and
when the locomotive came in contact
with the forward mail car but little
damage was done. Train No. 10, the
Oregon express, came along and pushed
the three detached sections of train No.
3 together, and then into Sacramento.
As far as can be learned, more than
300 pounds of coin were taken. If all
silver, it would be about \$75,000. It is believed that one sack, weighing 100
pounds, carried by the engineer, was
gold, considering the smallness of bulk
as compared to its weight. It so, that
sack contained \$25,000. a plague. Use the only known remedy for this great modern trouble, which is Warner's Safe Cure. I say the only known remedy, because it has been proven by years of test and experience to be the only remedy. Women have found it to be a 'friend in need' on which they can rely when in trouble, and it has never failed. I know nothing about it except from the effects I have seen it produce, but I do know that it is bure, palathile, powerful, and that it does what nothing eise can do."

Mrs. E. V. Whitcomb, of Kenosha, Wisconsin, says:

does what nothing else can do."
Mrs. E. V. Whitcomb, of Kenosha,
Wisconsin, says:
"Four years ago I was a very sick
weman. The doctor called the difficulty Bright's disease of the kidneys,
and said there was no help for me. At
about that time Warner's Safe Cure
came to my notice. I resolved to try it,
and was much surprised after one
week's trial to find myself improving. I
used a bottle every week for about
three months, living un strictly to the
directions for diet given on bottle, and
I have not been sick a day since. I
take a bottle now and then to keep my
blood in good order. In my judgment,
I owe my life to this wenderful medicine, the best that was ever discovered."
Mrs. Whitcomb's experience is only
one of many thousands that could be
cited. Do you not think the above
trattle are worthy your careful consid-

truths are worthy your careful consid-

FINANCE AND TRAOR.

says the produce to the system against maize as fodder for horses and cattle is daily growing less, and, while there has been no progress made to induce Germans to eat maize bread, the work to induce feeders to utilize it in place of other folder substitutes has been more successful. American corn. Mr. Mattes says, is becoming more popular with feeders of horses and cattle. Two years ago maize was not favored, and it had to be a great deal cheaper than oats if used, but now it finds takers at the same price as oats. The scarcity of forage plants last year in Germany compelled feeders to use maize, and since they have discussed its nourishing and strengthening qualities, the report says, it is safe to assert that the consumption will increase annually. Germany cannot produce sufficient fodder for the live stock, and large quantities of cats are imported annually, but mains in any preferred by many. In
